公司简介 INTRODUCTION

As the biggest owner of G682(Sunset Gold or Giallo Fantasia, Golden Sand) quarries, XIAMEN YEYANG™ exploit quarries, import and process blocks, export Granite&marble tiles, slabs, countertops, cut to size, pavers to USA, Canada, Germany, UK, India, Africa and other most parts in the world. Meanwhile, we directly import raw materials(blocks) from the quarries both for domestic and oversea markets; We are always keeping eyes on the development of new stone materials.

Since 1993, started with the production lines for the granite tiles, We were the top manufacturer in that specific area. When it comes into the 21st century, We have been processing the big slabs, cut-to-size and countertops by both of the Chinese and the foreign stones. Our products have got the certification of ISO9001: 2000 quality system to stand in the high quality markets. We have different departments:

- *Import & Export department -for the import of foreign blocks and export;
- *Quarry department -manage existing quarries and develop new materials;
- *Domestic project department -develop projects in China market;
- *Production department -daily process for projects;
- *Purchase department -source stone related products for our clients;
- *Quality inspection department etc -control quality for each order.

Along with the development of the real estates in the world, especially in China these years, We are doing more projects for granite exterior claddings, pavers and interior walling, flooring. We sincerely are happy to get your inquiry, we will not only offer you right materials based on your required quality and competitive prices, but also provide you nice service via quick reaction to your inquiry, as well as steady supply and prompt delivery.
